

2 INCH COLLECTION by JASPER MORRISON

FIRST LET'S MAKE THINGS THAT LAST.

The Emeco 1006 Navy Chair was first commissioned in the 1940s by the U.S. Navy for use on warships – the contract even specified that it had to be able to withstand torpedo blasts. Today our chairs are still made in the U.S.A., of 80% recycled aluminum, and are made by hand, by Emeco craftsmen using the original 77 step process. The world's best architects and designers collaborate with us to design chairs that are built and guaranteed to last a lifetime.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful chairs that last through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

2 INCH by JASPER MORRISON

The 2 Inch table collection by Jasper Morrison provides solutions for a wide variety of settings with tables in two shapes, three heights and table tops in various sizes and materials. The collection bears the hallmark of all Emeco furniture - it's simple, useful and built to last.

2 Inch Flat Base

The table column is beautifully formed to a softly rounded square shape. The shape of the flat base perfectly matches the column and suits both round and square table tops.

2 Inch X Base

The shape of the star base creates an elegant, light silhouette, complementing both round and square table tops. The tables have articulated and adjustable glides for utmost stability.

2 INCH FLAT BASE CAFÉ TABLE BY JASPER MORRISON, 2020

2 INCH FLAT BASE CAFÉ TABLE 24" ROUND OR SQUARE

W/D/DIA: 24" H: 28.4"
